News brief

This week is Public Works Week throughout the country, and Clark County Public Works reminds us that the department maintains more than 1,100 miles of roads and 75 bridges crossing rivers and streams. These travel routes range from major urban thoroughfares to backcountry lanes. All require inspection and upkeep. Starting this month, county Public Works will begin maintenance on nearly 100 miles of roadway around the county by applying a range of new overlays on existing road surfaces. Or, if necessary, workers may remove and replace deteriorating surfaces.
